

Would you like to be a Digital Champion?

We would like to invite you to nominate a member of your team to become a digital champion for adult social care and our provider network.

This is an opportunity to make a significant impact in your organisation by helping to navigate digital challenges and access digital services, new technologies, software, AI, and available relevant applications, apps and websites, training and digital resources.

A Digital Champion will:

- *Empower others:* Help others to gain confidence in using digital tools, new technologies and ways of working.
- *Build a digitally enabled community:* Foster a sense of connection and support among other digital champions, creating a digitally enabled community of practice.
- *Develop skills:* Enhance digital skills and knowledge, to benefit your organisation and for personal and professional growth.
- *Make a difference:* Play a crucial role in improving access to adult social care services, ensuring that no one is left behind in the field of digital.

As a digital champion you can gain:

- *Training and support:* Gain access to training, learning new skills and ongoing support to help succeed as a champion.
- *Online knowledge base and community:* Online access to shared resources, chat and information specifically for champions.
- *Networking opportunities:* Connect with like-minded individuals and professionals in the field of social care also interested in digital.
- *Access to new technologies:* evaluating effectiveness and impact on adult social care.

What do I need to become a digital champion:

You don't need any digital experience whatsoever. All that is required is an interest in digital and a willingness and enthusiasm to learn more about digital solutions, resources and training. You will need some availability to attend meetings (two per year online, plus two per year in person).

We believe that the passion and skills of your digital champion will make a real difference to both your organisation and to your service users. Join us in this digital journey and help us create a more digitally inclusive community that can benefit all.

To express your interest or to nominate a potential champion, or for more information contact: choosecare@eastriding.gov.uk. Please include the name, service name/team, telephone and email address of any nominated champion(s).
